Estimated Material Cost Per Lineal Foot

This is a guideline only. It should only be used as a reference and as a aid in buying Bufftech decking.

- 1. Calculate square footage of surface to cover with deck plank.
- 2. Multiply square footage x 2.18 to determine linear feet of deck plank required
- 3. Multiply linear feet of plank x 2 to determine linear feet of fill piece required
- 4. Measure linear footage of open ended plank to determine linear feet of end cover required.

	Bufftech Decking			
Product #	Description	Unit Price	Total	
DECK	PLANK 1-1/2 x 5-1/5 (PALLET QUANTITY -50 PIECES)			
119145P	Deck plank x 145" (12') covers apporx. 280 Sq. Ft.	\$1,983.33
